SUBJECT INDEX, VOLUME 55

Abdomen
  blunt trauma
    coagulopathy in, hemostat bandages effects blood loss and mortality, 275
    colon injury after, 906
    intracranial injuries and, thoracic aorta pseudoaneurysm and, endovascular repair of, case report, 778
    pancreatic injury, morbidity predictors, 898
    portal venous gas after, case report, 982
  intestinal fistula in, surgical closure of, technique for, 999
  penetrating trauma
    management of, 1095
    stab wounds, occult diaphragmatic injuries and, 647
  severe trauma, vacuum-assisted wound closure effects on early fascial closure after, 1155
  stab wounds
    diagnostic laparoscopy in, 636
    occult diaphragmatic injuries and, 647
Abdominal aorta, blunt trauma, complete occlusion after, review article, 795
Abdominal compartment syndrome
  gene expression in kidney and, 857
  intravascular volume depletion in intra-abdominal hypertension and, 734
  penetrating trauma and, management of, 1095
  vacuum-assisted wound closure effects on early fascial closure after severe trauma, 1155
Abuse, violence-related traumatic brain injuries and, 1045
Acidosis, factor VIIa effects in, 886
Adenosine triphosphate, release during mechanical ventilation, lung edema and, 290
Adhesion molecules, expression of, pulmonary leukosequestration and, in intestinal lymph after shock, 727
Advanced Trauma Life Support, trauma assessment using patient simulator and, 651
Advanced Trauma Operative Management course, development and evaluation of, 471
Air bags, side, risk of injury and, in near-side impact motor vehicle crashes, 430
Alcohol screening, trauma surgeon use of, national survey, 849
American Association for the Surgery of Trauma, 62nd annual meeting abstracts, 199
Aminoglycoside, once-daily dosing, clinical predictors of, 255
Amputation
  popliteal artery injuries, blunt vs. penetrating trauma, 362
  upper extremity revascularization after, case report, 566
  vascular injury requiring, hip dislocation and, case report, 135
Anemia, blood transfusion and, ICU patients, 269
Angiography, splenic trauma, nonoperative management of, hospitalization length of stay and, 317
Angiotensin II, actions and effects on microvascular permeability, 527
Animal attacks, bear claw-related penetrating head trauma, case report, 1178
Ankle, septic, fusion with hybrid external fixation, case series, 685
Antibiotics
  aminoglycoside, once-daily dosing, clinical predictors of, 255
  prophylactic, nosocomial pneumonia and, trauma patients, 249
Antithrombin, supertoxin-induced sepsis and, 546
Aorta
  coarctation of, aortic rupture and, in blunt trauma, 372
  dissection of
    after blunt trauma, case report, 1181
    oligosymptomatic, diagnostic implications, 1182
  rupture of, endovascular stent grafts in, case series, 805
  traumatic rupture of, endovascular stent grafts in, 805
Aortic valve, traumatic rupture of, repair, case report, 556
Apoptosis, intestinal epithelial cell, hypoxia/reoxygenation or tissue acidosis and bacteria and, 241
Arm traction, cross-table lateral cervical spine radiography effects, 800
Arteriography, retrograde transbrachial, in emergency room, axillosubclavian vascular injuries, 69
Arteriovenous rewarming, after hypothermia, comparison with venovenous rewarming, 741
Atrial septal defect, after motor vehicle crash, transcatheter closure of, case report, 559

Bacteria
  gram-positive, antithrombin effects in, 546
  hypoxia/reoxygenation and, intestinal epithelial cell apoptosis and, 241
Bear attack, penetrating head trauma and, 1178
Bicycle, safety education program, children, 920
Bile leak, traumatic liver injury and, angiographic embolization for, 1077
Biomechanics, bone-implant construct in proximal humerus fracture, 345
Bioterrorism, trauma system response to, 1014
Bladder injuries, intraperitoneal, suprapubic/urethral catheterization vs. urethral drainage effects, 1152
Blast injuries, shipboard, distribution and care of, 1022
Bleeding, massive, axillosubclavian trauma, retrograde transbrachial arteriography in ER for evaluation, 69
Blood loss, hemostat bandages effects, coagulopathy in liver injury, 275
Blood pressure
  automated vs. manual, validity comparison study, 860
  traumatic brain injury and, outcome effects, children, 1039
Blood transfusion, anemia and, in intensive care unit patients, 269
Blood volume, intravascular volume depletion in intra-abdominal hypertension and, 734
Blunt trauma
  abdominal
    coagulopathy in, hemostat bandages effects blood loss and mortality, 275
    colon injury after, 906
  abdominal aorta, complete occlusion after, review article, 795
  altered mental status after, validity of plain films of cervical spine and, 658
  aorta, endovascular stent grafts in, 805
  aortic dissection after, case report, 1181
  carotid injuries, incidental findings on magnetic resonance imaging/angiography, case report, 1002
  cervical spine, radiographic clearance of, 222
  coarctation of aorta and aortic rupture after, 372
  evaluation, chest radiography role in, children, 670
  facial fractures and life-threatening hemorrhage, transcatheter arterial embolization effects, 74
  functional outcome after, octogenarians, 26
  head injuries, four-wheel all-terrain vehicles vs. motorcycles, comparison study
  hemidiaphragm, hepatic lobe and small bowel dislocation to chest, diagnosis of, 180
  hip dislocation and vascular injury requiring amputation, case report, 135
  intraperitoneal bladder, suprapubic/urethral catheterization vs. urethral drainage effects, 1152
  isolated brain injury as cause of hypotension in, 1065
  lumbar spine evaluation in, reformatted helical CT for, 665
  metastatic tumor-related solid organ injury in, case report, 375
  polytrauma, mortality of, emergency physicians vs. emergency medical technicians, comparison study, 355
  popliteal artery, amputation rate, comparison with penetrating trauma, 362
  portal venous gas after, case report, 982

severe intracranial hypertension and, decompressive laparotomy for management, case report, 551
spleen, nonoperative management of, hospitalization length of stay and, 317
symptomatic traumatic subclavian steal syndrome, case report, 370
thoracic, air in spinal canal after, case report, 386
thoracic aorta, intravascular ultrasound and transesophageal echocardiography role in, 330
thoracic aorta occlusion, case report and literature review, 147
thoracic spine evaluation in, reformatted helical CT for, 665
vertebral artery, cervical spine fracture as predictor of, 811
Bone fixation, divergent screw placement effects on plate-to-bone fixation strength, 1139
Bone graft, from iliac crest, retroperitoneal hemorrhage after, case report, 141
Bone reconstruction, rib fractures, absorbable plates for repair of, 835
Bone-implant construct, proximal humerus fracture, cadaveric-biomechanical evaluation of, 345
Book reviews
Firearms and Ballistics for Physician and Attorney, 645
Master Cases for Shoulder and Elbow Surgery, 1180
Surgical Techniques for the Shoulder and Elbow, 1151
Surgical Techniques for the Spine, 1183
Trauma Secrets, 2nd ed., 590
Brain injuries
blunt trauma, as cause of hypotension in, 1065
fetal, after motor vehicle crash, case report, 782
intracranial pressure monitor placement by nonneurosurgeons, training protocol for, 480
isolated, as cause of hypotension in blunt trauma, 1065
mild traumatic, identification and evaluation in level I trauma center, 450
severe intracranial hypertension in, decompressive laparotomy for management, case report, 551
severe traumatic, lung injury and, neurologic outcome, 106
traumatic
in Army paratroopers, prevalence and characteristics, 617
blood pressure effects on outcome, children, 1039
hyperglycemia and outcomes in, children, 1035
hypotension and hypothermia in, mortality effects (letter), 388
motor vehicle design effects on, 845
prehospital endotracheal intubation (letter), 1184
violence-related, population-based study, 1045
Bronchoalveolar lavage, ventilator-associated pneumonia diagnosis and, 263, 825
Bronchoscopy, ventilator-associated pneumonia diagnosis and, 825
Bullet, embolus, from vena cava, case report, 979
Bullet fragmentation, rifle wounds of the chest, 622
Burn injuries, thermal/electrical extremities, free tissue transfers in, 707

Carbon dioxide, end-tidal vs. arterial, as mortality marker in trauma surgery, 892
Cardiac output, esophageal Doppler monitor use in ventilated surgical patients, 720
Carotid artery, blunt trauma, incidental findings on magnetic resonance imaging/angiography, case report, 1002
Casualties, mass, terrorism and, trauma system response to, 1014
Cerebral fat embolism, intracranial pressure monitoring and (letter), 1185
Cervical spine
blunt trauma
altered mental status after, validity of plains films, 658
radiographic clearance of, 222
fracture, as predictor of blunt vertebral artery injury, 811
Chemiluminescence, phagocyte priming as prognostic indicator in severe trauma and, 1089
Chest
blunt trauma
radiography role in evaluation, children, 670
thoracic aorta, intravascular ultrasound and transesophageal echocardiography role in, 330
penetrating trauma
handpump for evacuation of hemothorax in, 864
rifle, bullet fragmentation effects, 622
severe, pulmonary contusion after, resuscitation strategy, 94
severe trauma, scapula fractures and multiple trauma and, 1145
Children
bicycle safety program, 920
blunt trauma, chest radiography role in evaluation, 670
exercise, treadmill-associated injuries, management of, 130
injury severity, mechanism of injury effects on, 454
leg amputation after intraosseous infusion, infant, case report, 788
mortality predictors, New Injury Severity Score vs. Injury Severity Score, 1083
motor vehicle crashes, ejections in, 126
multiple organ dysfunction syndrome (letter), 181
nonintracranial fatal firearm injuries, treatment implications, 631
pelvic fracture, pelvic radiograph for assessment of, 236
tibial fracture as complication of intraosseous infusion during resuscitation, case report, 786
traumatic brain injury
blood pressure effects on outcome, 1039
hyperglycemia and, 1035
Cholecystectomy, acute acalculous cholecystitis after trauma and, 323
Cholecystitis, acute acalculous, after trauma, prospective study, 323
Clavicle
medial, epiphyseal disruption of, treatment with modified Balser plate, 966
nonunion of, plate osteosynthesis of, limb-threatening complications after, case report and literature review, 840
Clostridium difficile pericarditis, pseudomembranous colitis and, in trauma patient, case report, 771
Coagulopathy
early, as predictor of mortality in trauma, 39
liver injury and, hemostat bandages effects on blood loss and mortality in, 275, 621
Cognitive deficits, mild traumatic brain injury, identification and evaluation in level I trauma center, 450
Colitis, pseudomembranous, *Clostridium difficile* pericarditis and, in trauma patient, case report, 771
Colon, obstruction of, retained surgical sponge after laparotomy, case report, 989
Colon injury, after blunt abdominal trauma, 906
Combat
injuries, surgeons care of (letter), 1005
penetrating trauma, handpump for evacuation of hemothorax in, 864
shipboard blast injuries, distribution and care of, 1022
Common iliac artery injury, pelvic fracture and, endovascular stenting of, case report, 383
Compartment syndromes, tibial fracture and, outcome effects, 1133
Computed tomography
cervical spine blunt trauma, comparison with radiography, 222
efficacy in closed head injuries, 1061
loss of consciousness after mild head injury, 1
pelvic fracture, assessment of, children, 236
reformatted helical, thoracic/lumbar spine evaluation in blunt trauma, 665
smoke inhalation injury severity assessment, 417
spiral, temporal bone fractures evaluation, comparison with radiography, 704
thoracolumbar spine injuries, validation of screening, 228
three-dimensional, manubrium fracture diagnosis, case report, 139
Congestive heart failure, functional outcome after blunt trauma and, octogenarians, 26
Consciousness, loss of, after mild head injury, CT evaluation, 1
Craniocervical dissociation, pneumocephalus and, after T-bone motor vehicle crashes, case report, 387
Cyclic adenosine monophosphate, lung pericytes and, 677

Cyclooxygenase, pulmonary contusion after severe chest trauma and, resuscitation strategies, 94
Cytokines
  lipopolysaccharide-induced, nitric oxide effects on, 540
  proinflammatory, fracture stabilization effects on, in patients with multiple injuries, 7
Cytoskeleton, changes in, in systemic inflammatory response syndrome, 1125

Debridement, petroleum-contaminated skin, cleanser for, 1148
Dementia, functional outcome after blunt trauma and, octogenarians, 26
Diaphragm, occult injuries, stab wounds and, 647
Diaphyseals fracture, lower extremity, neurovascular injury during external fixator placement, 955
Dislocation, knee
  internal fixation/external fixator effects, case report, 366
  outcome after treatment, case series, 489
Doppler monitor, esophageal, in ventilated surgical patients, 720
Dressing, hemostatic, in venous hemorrhage, comparison study, 518
Duodenum, trauma to, case report, 802

Eastern Association for the Surgery of Trauma, practice guidelines, emergency tracheal intubation after traumatic injury, 163
Echocardiography, transesophageal, in blunt thoracic aortic injury, 330
Edema
  lung, adenosine triphosphate release during mechanical ventilation and, 290
  posttraumatic, lower extremity, pathomechanism of, 350
Education
  Advanced Trauma Operative Management course, development and evaluation of, 471
  bicycle safety, children, 920
  general surgery residents, trauma care outcomes and efficiency and, 14
  intracranial pressure monitor placement by nonneurosurgeons, training protocol for, 480
  trauma assessment, patient simulator and, 651
Ejections, in motor vehicle crashes, children, 126
Elderly, blunt trauma, functional outcomes after, 26
Electrical injuries, extremities, free tissue transfers in, 707
Embolism, bullet, from vena cava, case report, 979
Embolization
  angiographic, in liver injuries, mortality and morbidity effects, 1077
  antegrade and retrograde, transected vertebral artery and, case report, 151
  Guglielmi detachable coil, penetrating vertebral artery injury, case report, 1171
  transcatheter arterial, maxillofacial injuries and life-threatening hemorrhage, 74
Endoscopy, frontal sinus fracture repair, case report, 378
Endovascular graft, thoracic aortic rupture repair with, thoracic aortic occlusion after, case report, 593
Endovascular treatment, subclavian artery pseudoaneurysm, case report, 969
Enteroenterostomy, intra-abdominal complications after, international review, 399
Epidemiology
  acute acalculous cholecystitis after trauma, 323
  distal forearm fractures, incidence, risks, and future projections, 87
  gunshot wounds pattern of, in Nigerian teaching hospitals, 627
  mortality, decline in rates of, 391in developing country (letter)
  multiple organ failure, incidence and treatment of, 608
  trauma care quality, estimation of, in teaching hospitals in Tehran, 459
  traumatic brain injuries
    in Army paratroopers, prevalence and characteristics, 617
    motor vehicle design effects on, 845
  traumatic spinal cord injuries, prevention strategies and, 1070
  violence-related traumatic brain injuries, 1045
Epiphyseal disruption, of medial clavicle, treatment with modified Balser plate, 966
Erectile function, penile refracture and, case report, 793
Estrus cycle, lung and gut injury after hemorrhagic shock and, 531
Exercise, treadmill-associated injuries, children, 130
Extracorporeal circulation, rewarming after posttraumatic hypothermia, 407
Extremities
  blunt vascular trauma in, diagnosis, management and outcome, 814
  petroleum-contaminated skin, cleanser for, 1148
  thermal/electrical injuries, free tissue transfers in, 707

Facial fractures
  life-threatening hemorrhage and, transcatheter arterial embolization effects, 74
  mandible, cost-bases analysis of treatment, 514
Factor VIIa, temperature and pH effects on, 886
Fall, 19-story, survival after, case report, 869
Fatality, near-side impact motor vehicle crashes, side air bags and risk of, 430
Femoral medullary cavity, reaming of, intramedullary pressure and cortical temperature during, 495
Femoral nailing, retrograde, femoral shaft fracture and, optimal starting point for, 692
Femoral shaft
  femoral neck, distal femur, and, fractures of, management of, 80
  fracture of
    intramedullary instrumentation vs damage control, immunoinflammatory parameters impact, 7
    retrograde femoral nailing, optimal starting point for, 692
Femur
  fractures, femoral shaft, femoral neck, and distal femur, management of, 80
  intertrochanteric fracture, lateral support plate effects on fixation of, 505
  intramedullary nailing of, infection after, 338
  open fracture of, tuberculous osteomyelitis after, case report, 144
Fetus, brain injury after motor vehicle crash, case report, 782
Fibula, fracture, pseudoaneurysm of anterior tibial artery, thrombotic resolution of, case report, 561
Fistula
  intestinal, surgical closure in open abdomen, technique for, 999
  pancreatic, morbidity predictors after, 898
Fixator, hybrid external, septic ankle fusion with, case series, 685
Flow cytometry, hyperthermia effects on expression of heat shock protein 60 in severe head injury, 1054
Forearm
  defects after high-energy trauma, functional reconstruction after, case report, 774
  distal, fracture of, incidence, risks, and future projections, 87
Foreign bodies, neglected, in urinary bladder, removal of, case report, 791
Fractures. *see also* specific site
  distal forearm, incidence, risks, and future projections, 87
  fixation, divergent screw placement effects on plate-to-bone fixation strength, 1139
  open, tuberculous osteomyelitis after, case report, 144
  tile B, sacroiliac screw fixation for, 962
Frontal sinus, fracture of, endoscopic repair of, case report, 378

Gastrointestinal tract
  duodenal trauma and, case report, 802
  hemorrhage, lumber artery pseudoaneurysm and, case report, 154
Gender considerations, lung and gut injury after hemorrhagic shock and, 531
Gene expression, in kidney, intra-abdominal hypertension effects on, 857
Glasgow Coma Score, pupil size, pupil reactivity and, trauma outcome determination and, 437
Glucose, hyperglycemia as prognostic indicator in trauma and, 33
Graft, endovascular stent, aortic rupture and, case series, 805
Gunshot wounds
  hyoid bone fracture from, case report, 1003
  nonintracranial fatal, in children, treatment implications, 631

pattern of, Nigerian teaching hospitals, 627
pseudoaneurysm of popliteal and tibioperoneal arteries after, 485
rifle, chest, bullet fragmentation effects, 622
Gut failure, after shock, 727
Gut injury, lung injury and, after trauma and hemorrhagic shock, gender and estrus cycle effects on, 531

HBOC-201
effects on human neutrophil activation, 755
low-volume fluid resuscitation in hemorrhage and, 873
Head injuries
closed, CT scanning efficacy in, 1061
four-wheel all-terrain vehicles vs. motorcycles, comparison study
loss of consciousness after, CT evaluation, 1
mild, management guidelines, national strategy for implementation of, 1029
penetrating, bear claw-related, case report, 1178
severe
hyperthermia effects on heat shock protein 60 expression in, 1054
paramedic-administered neuromuscular blockage effects on prehospital intubation, 713
Health care costs
computerized collaborative billing effects on payment denials, 762
mandibular fractures, treatment of, 514
Heart, hemorrhage, oxygenation after, hemoglobin-based oxygen carrier and, 1111
Heat shock protein 60, hyperthermia effects on expression of, in severe head injury, 1054
Helmet, prevalence and predictors of use, skiers and snowboarders, 939
Heme oxygenase-1, hemorrhagic shock-induced leukocyte adherence and, 118
Hemidiaphragm, blunt rupture of, hepatic lobe and small bowel dislocation to chest, diagnosis of, case report, 180
Hemoglobin-based oxygen carrier, oxygenation after hemorrhage and, 1111
Hemoperitoneum, traumatic disruption of hepatocolic ligament and, CT diagnosis, case report, 1175
Hemorrhage
fluid resuscitation and, strategies for, animal trial review study, 571
life-threatening, maxillofacial injuries and, transcatheter arterial embolization effects, 74
lower gastrointestinal tract, lumbar artery pseudoaneurysm presenting with, case report, 154
low-volume fluid resuscitation, 873
oxygenation after, hemoglobin-based oxygen carrier and, 1111
pelvic, after transcatheter arterial embolization, mortality predictors after, 696
renal artery pseudoaneurysm and, diagnosis and management, case report, 972
retroperitoneal, after bone graft from iliac crest, case report, 141
uncontrolled, spleen rupture and, blood loss after fluid resuscitation in, 112
venous, hemostatic dressings comparison study, 518
Hemostat bandages, blood loss and mortality effects
coagulopathy in liver injury and, 275
in coagulopathy and liver injury, 621
Hemostatic dressings, in venous hemorrhage, comparison study, 518
Hemothorax, handpump for evacuation of, in penetrating chest injuries, 864
Hepatocolic ligament, traumatic disruption, CT diagnosis, case report, 1175
Hernia, traumatic lumbar, ureteropelvic junction disruption and, case report and literature review, 985
Hetastarch, pulmonary contusion after severe chest trauma and, resuscitation strategies, 94
Hextend, pulmonary contusion after severe chest trauma and, resuscitation strategies, 94
Hip
dislocation
in snowboarders and skiers, 946
with vascular injury requiring amputation, case report, 135
intertrochanteric femur fracture, lateral support plate effects on fixation of, 505
Hollow viscus injury, after blunt abdominal trauma, 906
Hospitalization
length of stay
blood transfusion and (letter), 390
daily multidisciplinary round effects on, 913
nonoperative management of blunt splenic injuries effects, 317
quality of care, time to death as indicator of, 45
Humerus, proximal, fracture, bone-implant construct, cadaveric-biomechanical evaluation of, 345
Hyoid bone, fracture of, from gunshot wound, case report, 1003
Hyperglycemia
as prognostic indicator in trauma, 33
traumatic brain injury and, children, 1035
Hypertension
intra-abdominal
gene expression in kidney and, 857
intravascular volume depletion and, 734
severe intracranial, decompressive laparotomy for management of, case report, 551
Hyperthermia, heat shock protein 60 expression effects, in severe head injury, 1054
Hypertonic saline/dextran, optimal dose in hemorrhagic hypotension, 413
Hypopharynx, perforation of, snooker cue as cause of, case report, 992
Hypotension
brain injury as cause of, in blunt trauma, 1065
hemorrhagic, hypertonic saline/dextran in, optimal dose in, 413
hemorrhagic shock, low-volume resuscitation fluids in, 747
hypothermia and, in traumatic brain injury, mortality effects (letter), 388
Hypothermia
arteriovenous vs. venovenous rewarming after, 741
continuance after hemorrhagic shock, survival effects, 308
factor VIIa effects in, 886
hypotension and, in traumatic brain injury, mortality effects (letter), 388
posttraumatic, centrifugal vortex blood pump and heparin-bonded circuit for rewarming after, 407
Hypoxia/reoxygenation, tissue acidosis and bacteria and, intestinal epithelial cell apoptosis effects, 241

Iliac crest, bone graft from, retroperitoneal hemorrhage after, case report, 141
Immunomodulation, HBOC-201 effects on neutrophil activation and, 755
Infants, leg amputation after intraosseous infusion, case report, 788
Infection
after intramedullary nailing of femur, 338
in hematologic malignancy, disseminated zygomycosis as cause of, case report, 568
hyperglycemia as prognostic indicator in trauma and, 33
open tibial fractures, effects on outcome, 949
Inferior vena cava, injury, intramural thrombosis and, after penetrating trauma, case report and literature review, 1168
Inflammatory response, multiple organ dysfunction syndrome and, children (letter), 182
Inflammatory response syndrome, systemic
cytoskeleton and microparticle formation changes in, 1125
definition and classification by trauma surgeons (commentary), 997
Infusion, intraosseous, leg amputation after, in infant, case report, 788
Injury. *see also* specific type or site
alcohol-related, alcohol screening by trauma surgeon and, national survey, 849
critical, in-house trauma surgeon effects on management and outcome, 20
lower extremity, posttraumatic edema of, pathomechanism of, 350
mechanism of, in severe injuries, effects on outcome, children, 454
multiple, fracture stabilization effects on proinflammatory cytokines, 7
severe, mechanism of injury effects on outcome, children, 454
skiers and snowboarders, prevalence and predictors of helmet use, 939
Injury prevention
distal forearm fractures, incidence, risks, and future projections, 87
traumatic spinal cord injuries, injury surveillance study, 1070
treadmill-associated injuries, children, 130

Injury severity, outcome scoring in multiple trauma, 599
Injury Severity Score
  independently derived vs. traditional survival risk ratios and, 933
  mortality predictions in pediatric trauma, comparison with New Injury Severity Score, 1083
  outcome predictors and, 925
Intensive care, hemorrhagic, acute acalculous cholecystitis after trauma and, 323
Intensive care unit, anemia and blood transfusion in, 269
Intracranial pressure
  monitor placement by nonneurosurgeons, training protocol for, 480
  monitoring
    cerebral fat embolism and (letter), 1185
    in severe closed head injury, CT efficacy in, 1061
Intramedullary nailing, femur, infection after, 338
Intramedullary pressure, during reaming of femoral medullary cavity, 495
Intravascular volume depletion, in intra-abdominal hypertension, 734
Intubation
  after trauma, survival probability predictors, 53
  endotracheal, prehospital, in traumatic brain injuries (letter), 1184
  prehospital
    impact in adult patients (letter), 388
    paramedic-administered neuromuscular blockage effects on, in severe head injury, 713
  tracheal, emergency, after traumatic injury, guidelines for, 163
Ischemia, axillosubclavian trauma, retrograde transbrachial arteriography in ER for evaluation, 69

Jugular vein, internal
  exsanguinating wound, endovascular management of, 158
  zone III wounds of, treatment options for (letter), 1185

Kidney, gene expression in, intra-abdominal hypertension effects on, 857
Kirschner wire, percutaneous transverse fixation of closed metacarpal fracture, 509
Knee
  third-grade open dislocation, internal fixation/external fixator effects, case report, 366
  traumatic dislocation, outcome after treatment, case series, 489

Laparoscopy, in abdominal stab wounds, diagnostic role, 636
Laparotomy
  decompressive, severe intracranial hypertension and, case report, 551
  traumatic, retained surgical sponge after, as cause of colon obstruction, case report, 989
Latissimus dorsi pedicle flap, upper extremity revascularization after amputation and, case report, 566
Leg, amputation, after intraosseous infusion, infant, case report, 788
Leukocyte adherence, hemorrhagic shock-induced, heme oxygenase-1 expression effects, 118
Lipopolysaccharide, cytokines induced by, nitric oxide effects on, 540
Liver, trauma
  angiographic embolization effects, 1077
  coagulopathy and, hemostat bandage effects on blood loss and mortality in, 621
Logistic regression, time to death as indicator of quality of trauma care, 45
Lower extremity
  central myonecrosis in toxic shock syndrome and, case report, 994
  diaphyseal fracture, neurovascular injury during external fixator placement, 955
  posttraumatic edema, pathomechanism of, 350
  venous thromboembolism of, in thermal injury, duplex sonography determination of prevalence, 1162
Lumbar artery, pseudoaneurysm of, with lower gastrointestinal tract hemorrhage, case report, 154
Lumbar hernia, traumatic, ureteropelvic junction disruption and, case report and literature review, 985
Lumbar spine, blunt trauma, reformatted helical CT for evaluation of, 665
Lung
  edema, adenosine triphosphate release during mechanical ventilation and, 290
  smoke inhalation injury, CT assessment of severity of, 417
  trauma
    gut injury and, after trauma and hemorrhagic shock, gender and estrus cycle effects on, 531
    hemorrhagic shock, local/systemic tumor necrosis factor-á response to lipopolysaccharide after, 298
    penetrating, handpump for evacuation of hemothorax in, 864
    severe traumatic brain injuries and, neurologic outcome, 106
    severity scoring, mechanical ventilation and, 285

Malignancy, hematologic, disseminated zygomycosis as cause of infection in, case report, 568
Mandible, fracture of, cost-based analysis of treatment, 514
Manubrium, fracture of, three-dimensional CT diagnosis, case report, 139
Maxillofacial injuries, life-threatening hemorrhage and, transcatheter arterial embolization effects, 74
Medicine, business of, trauma surgeons and (editorial), 215
Mental status, after blunt trauma, validity of plains films of cervical spine and, 658
Metacarpal fracture, closed, percutaneous transverse fixation with Kirschner wires effects, 509
Microparticle formation, changes in, in systemic inflammatory response syndrome, 1125
Morbidity
  four-wheel all-terrain vehicles vs. motorcycles, 282
  predictors of, after traumatic pancreatic injury, 898
Mortality
  blunt polytrauma, emergency physicians vs. emergency medical technicians, comparison study, 355
  decline in rates of, in developing country (letter), 391
  end-tidal CO_2 vs. arterial CO_2 as marker of, in trauma surgery, 892
  fall-related, case report, 869
  gunshot wounds, pattern of, in Nigerian teaching hospitals, 627
  hemostat bandages effects on, coagulopathy in liver injury and, 275
  hyperglycemia as prognostic indicator in trauma and, 33
  hypothermia and hypotension and in traumatic brain and (letter), 388
  in intensive care unit patients, phagocyte priming as prognostic indicator in, 1089
  liver injuries, angiographic embolization for, 1077
  multiple organ failure, incidence and treatment of, 608
  nonintracranial fatal gunshot wounds, in children, 631
  predictors of
    injury severity and, outcome scoring in multiple trauma, 599
    New Injury Severity Score vs. Injury Severity Score, children, 1083
    pelvic hemorrhage after transcatheter arterial embolization, 696
  time to death as indicator of hospitalization quality of care, 45
  trauma, early coagulopathy as predictor of, 39
  trauma care quality and, estimation in teaching hospitals in Tehran, 459
Motor vehicle crashes
  abdominal aorta blunt trauma, complete occlusion after, review article, 795
  atrial septal defect after, transcatheter closure of, case report, 559
  blunt carotid trauma, incidental findings on magnetic resonance imaging/angiography, case report, 1002
  blunt thoracic trauma, air in spinal canal after, case report, 386
  cerebral fat embolism, intracranial pressure monitoring and (letter), 1185
  coarctation of aorta and aortic rupture in, 372
  ejections in, children, 126
  fetal brain injury after, case report, 782
  four-wheel all-terrain vehicles vs. motorcycles, morbidity in, comparison study, 282
  near-side impact, side air bags and risk of injury, 430
  T-bone, craniocervical dissociation and pneumocephalus after, case report, 387

Motor vehicles, design of, traumatic brain injuries and, 845
Multidisciplinary care, effects on hospital length of stay, 913
Multiple organ dysfunction syndrome
in children (letter), 181
definition and classification by trauma surgeons (commentary), 997
inflammatory response and, children (letter), 182
phagocyte priming as prognostic indicator in, 1089
Multiple organ failure
incidence and treatment of, 608
lung injury severity scoring in mechanical ventilation, 285
Multiple trauma
maxillofacial injuries and life-threatening hemorrhage, transcatheter arterial embolization effects, 74
mortality outcome predictors in, 599
scapula fractures and, 1145
Myonecrosis, central, in toxic shock syndrome, case report, 994

National Death Index, time to death as indicator of quality of trauma care and, 45
Neck trauma, exsanguinating wound of internal jugular vein, endovascular management of, case report, 158
Neurologic outcome, severe traumatic brain injuries and lung injury development, 106
Neuromuscular blockade, paramedic-administered, prehospital intubation success and, in severe head injury, 713
Neurosurgery, intracranial pressure monitor placement by nonneurosurgeons, training protocol for, 480
Neurovascular injury, during external fixator placement, in lower extremity diaphyseal fracture, 955
Neutrophil activation, HBOC-201 effects on, 755
New Injury Severity Score, mortality predictions in pediatric trauma, comparison with Injury Severity Score, 1083
Nitric oxide, lipopolysaccharide-induced cytokines and, 540

Occlusion, thoracic aorta
after thoracic aortic rupture repair with endovascular graft, case report, 593
case report and literature review, 147
Oligosymptomatic aortic dissection, diagnostic implications, 1182
Organ failure, hypoxia/reoxygenation and tissue acidosis and bacteria and, 241
Organ injuries, metastatic tumor-related, in blunt trauma, case report, 375
Osteomyelitis, tuberculous, after open fracture, case report, 144
Osteosynthesis
plate, for clavicular nonunion, limb-threatening complications after, case report and literature review, 840
screw, bone-implant construct in proximal humerus fracture and, 345
Outcomes
after 19-story fall, case report, 869
blunt vascular trauma in extremities, 814
critically injured patients, in-house trauma surgeon effects, 20
determination of, Glasgow Coma Score, pupil size, and pupil reactivity for, 437
functional, after blunt trauma, octogenarians, 26
hemorrhagic shock, hypothermia continuance after, survival effects, 308
hyperglycemia as prognostic indicator in trauma and, 33
interfacility transfer in urban trauma systems effects on, 444
intubated trauma patients, survival probability predictors, 53
mechanism of injury effects on outcome in severe injury, children, 454
mortality predictions in pediatric trauma, Injury Severity Score vs. New Injury Severity Score, 1083
open tibial fractures, treatment delay and infection effects on, 949
phagocyte priming as prognostic indicator in severe trauma, 1089
predictors of, injury severity score and, 925
scoring, injury severity role in predicting, 599
severe traumatic brain injuries and lung injury development, 106
tibial fracture, intramuscular compartment pressure effects on, 1133
trauma care, general surgery residents effects on, 14
traumatic brain injury, blood pressure effects on, children, 1039
traumatic brain injury and hyperglycemia, children, 1035
Oxidative burst, HBOC-201 effects on neutrophil activation and, 755

Pancreas, traumatic injury, morbidity predictors after, 898
Parachuting, traumatic brain injury in Army paratroopers, prevalence and characteristics, 617
Partial thromboplastin time, prothrombin time and, trauma-related mortality and, 39
Pathophysiology, posttraumatic edema of lower extremity, 350
Patient simulator, trauma assessment and, 651
Pelvic fracture
common iliac artery injury and, endovascular stenting of, case report, 383
hemorrhage after transcatheter arterial embolization, mortality predictors after, 696
pelvic radiograph assessment of, children, 236
sacroiliac screw fixation for, 962
Penetrating trauma
abdominal
management of, 1095
stab wounds, diagnostic laparoscopy in, 636
bullet embolus from vena cava, case report, 979
chest, handpump for evacuation of hemothorax in, 864
exsanguinating wound of internal jugular vein, endovascular management of, case report, 158
facial fractures and life-threatening hemorrhage, transcatheter arterial embolization effects, 74
gunshot wounds
hyoid bone fracture, case report, 1003
pseudoaneurysm of popliteal and tibioperoneal arteries after, 485
head, bear claw-related, case report, 1178
inferior vena caval injury and intramural thrombosis, case report and literature review, 1168
popliteal artery, amputation rate, comparison with blunt trauma, 362
stab wounds, occult diaphragmatic injuries and, 647
transected vertebral artery, antegrade and retrograde embolization of, case report, 151
vertebral artery, Guglielmi detachable coil embolization of, case report, 1171
Penile refracture, case report, 793
Pericarditis, *Clostridium difficile*, pseudomembranous colitis and, in trauma patient, case report, 771
Pericytes, lung, cyclic adenosine monophosphate and cyclic guanosine monophosphate-dependent pathways in, 677
Permeability, microvascular, angiotensin II actions and effects on, 527
Petroleum-contaminated skin, cleanser for, 1148
Phagocyte priming, as prognostic indicator in severe trauma, 1089
Pneumocephalus, craniocervical dissociation and, after T-bone motor vehicle crashes, case report, 387
Pneumonia
nosocomial, prophylactic antibiotics and, trauma patients, 249
ventilator-associated
bronchoalveolar lavage in diagnosis of, 263
diagnostic techniques in, 825
Polytrauma, blunt, mortality of, emergency physicians vs. emergency medical technicians, comparison study, 355
Popliteal artery
blunt vs. penetrating trauma, amputation rate, 362
pseudoaneurysm of, after gunshot wounds, 485
Portal venous gas, after blunt trauma, case report, 982
Practice guidelines
emergency tracheal intubation after traumatic injury, 163
mild head injuries, national strategy for implementation of, 1029
Prehospital care
intubation, impact in adult patients (letter), 388

paramedic-administered neuromuscular blockage effects on intubation, in severe head injury, 713
respiratory rate as triage tool, in rural trauma care, 466
Prostaglandin, pulmonary contusion after severe chest trauma and, resuscitation strategies, 94
Prothrombin time, partial thromboplastin time and, trauma-related mortality and, 39
Pseudoaneurysm
anterior tibial artery, thrombotic resolution of, case report, 561
lumbar artery, with lower gastrointestinal tract hemorrhage, case report, 154
popliteal and tibioperoneal arteries, after gunshot wounds, 485
renal artery, diagnosis and management, case report, 972
subclavian artery, endovascular treatment of, case report, 969
thoracic aorta, in patient with intracranial and intra-abdominal injuries, endovascular repair, case report, 778
Pulmonary contusion, after severe chest trauma, resuscitation strategy, 94
Pulmonary edema, adenosine triphosphate release during mechanical ventilation and, 290
Pupil size/reactivity, Glasgow Coma Score and, trauma outcome determination and, 437

Quality of care, hospitalization, time to death as indicator of, 45

Radiography
cervical spine
altered mental status after blunt trauma and, 658
blunt trauma, comparison with CT, 222
cross-table lateral, arm traction effects on, 800
chest, after blunt trauma, children, 670
pelvic, pelvic fracture assessment, children, 236
temporal bone fracture evaluation, comparison with spiral CT scan, 704
Radiology, interventional, angiographic embolization for traumatic liver injury, 1077
Renal artery, pseudoaneurysm, diagnosis and management, case report, 972
Residents, general surgery, trauma care efficiency and outcomes and, 14
Respiratory distress syndrome, smoke inhalation injury, CT assessment of severity of, 417
Resuscitation
arteriovenous vs. venovenous, after hypothermia, 741
fluid
blood loss after, spleen rupture-induced uncontrolled hemorrhage and, 112
bolus vs. continuous, splenectomy and, in hemorrhagic shock after massive splenic injury, 62
HBOC-201 effects on neutrophil activation and, 755
hypertonic saline/dextran, optimal dose in hemorrhagic hypotension, 413
intraosseous infusion, tibial fracture as complication of, child, case report, 786
low-volume
controlled hemorrhage and, 873
in hemorrhagic shock, comparison study, 747
strategies for, animal trial review study, 571
pulmonary contusion after severe chest trauma and, 94
Revascularization, upper extremity, after traumatic amputation, case report, 566
Rewarming
arteriovenous vs. venovenous, after hypothermia, 741
extracorporeal, centrifugal vortex blood pump and heparin-bonded circuit for, in posttraumatic hypothermia, 407
Rib fracture, absorbable plates for repair of, 835
Risk factors, acute acalculous cholecystitis after trauma, 323
Risk ratios, independently derived vs. traditional, Injury Severity Score and, 933

Scapula, fractures, multiple trauma and, 1145
Sepsis
adhesion molecule expression after, 727
ankle, fusion with hybrid external fixation, case series, 685
cyclic adenosine monophosphate and cyclic guanosine monophosphate-dependent pathways in lung pericytes and, 677
definition and classification by trauma surgeons (commentary), 997
hyperglycemia as prognostic indicator in trauma and, 33
supertoxin-induced, antithrombin effects in, 546
Shipboard blast injuries, distribution and care of, 1022
Shock
angiotensin II actions and effects on microvascular permeability and, 527
hemorrhagic
acute acalculous cholecystitis after trauma and, 323
after massive splenic injury, bolus vs. continuous fluid resuscitation and splenectomy effects, 62
continuing hypothermia after, survival effects, 308
leukocyte adherence induced by, heme oxygenase-1 expression effects, 118
local vs. systemic tumor necrosis factor-á response to lipopolysaccharide in, 298
low-volume resuscitation fluids in, 747
lung and gut injury after, gender and estrus cycle effects on, 531
spleen rupture-induced, blood loss after fluid resuscitation in, 112
hypovolemic, small bowel appearing calamari-like in, case report, 803
intestinal lymph after, adhesion molecule expression and pulmonary leukosequestration, 727
Shunt, bilateral temporary aortoiliac, vascular damage control, case report, 592
Skiers
hip dislocation in, 946
prevalence and predictors of helmet use, 939
Skin, petroleum-contaminated, cleanser for, 1148
Small bowel
calamari-appearing, in hypovolemic shock, case report, 803
trauma, surgical repair, intra-abdominal complications after, international review, 399
Smoke inhalation injury, CT assessment of severity, 417
Snooker cue, hypopharynx perforation caused by, case report, 992
Snowboarding
hip dislocation in, 946
prevalence and predictors of helmet use, 939
Sonography, duplex, venous thromboembolism of lower extremities in thermal injuries, 1162
Spinal canal, air in, after blunt thoracic trauma, case report, 386
Spinal cord injuries
cervical, radiography vs. CT for evaluation of, 222
thoracolumbar, CT screening, validation of, 228
traumatic, epidemiology and prevention strategies, 1070
Spleen
blunt trauma, nonoperative management, length of stay effects, 317
massive injury, hemorrhagic shock after, fluid resuscitation and splenectomy effects, 62
rupture of, uncontrolled hemorrhage and, blood loss after fluid resuscitation in, 112
Splenectomy, fluid resuscitation and, in hemorrhagic shock after massive splenic injury, 62
Sports injuries
snooker cue as cause of hypopharynx perforation, case report, 992
snowboarders and skiers, hip dislocation, 946
Stab wounds
abdominal, diagnostic laparoscopy in, 636
occult diaphragmatic injuries caused by, 647
Staphylococcal enterotoxin B, antithrombin effects in, 546
Stenting, endovascular, common iliac artery injury and pelvic fracture and, case report, 383
Sternum, fracture of, three-dimensional CT diagnosis, case report, 139
Subclavian artery, pseudoaneurysm of, endovascular treatment of, case report, 969
Subclavian steal syndrome, symptomatic traumatic, case report, 370
Surgeons
alcohol screening by, national survey, 849
general surgeon to Surgeon General (editorial), 595

in-house trauma, management/outcome effects in critically injured patients, 20
trauma, business medicine and (editorial), 215
Surgery
abdominal severe trauma, vacuum-assisted wound closure effects on early fascial closure after, 1155
Advanced Trauma Operative Management course, development and evaluation of, 471
aortic valve rupture, repair of, case report, 556
atrial septal defect, after motor vehicle crash, transcatheter closure of, case report, 559
clavicular nonunion, plate osteosynthesis for, limb-threatening complications after, case report and literature review, 840
closed metacarpal fracture, percutaneous transverse fixation with Kirschner wires effects, 509
divergent screw placement effects on plate-to-bone fixation strength, 1139
endovascular stent grafts in traumatic rupture of aorta, 805
epiphyseal disruption of medial clavicle, treatment with modified Balser plate, 966
femoral neck, distal femur, and femoral shaft fractures, 80
femoral shaft fracture, retrograde femoral nailing, optimal starting point for, 692
femur, intramedullary nailing of, infection after, 338
forearm defects after high-energy trauma, functional reconstruction after, case report, 774
free tissue transfers in thermal/electrical extremity injuries, 707
general surgery residents, trauma care efficiency and outcomes and, 14
intracranial pressure monitor placement by nonneurosurgeons, training protocol for, 480
knee dislocation, outcome after treatment, case series, 489
lower extremity diaphyseal fracture, neurovascular injury during external fixator placement, 955
open knee dislocation, internal fixation/external fixator effects, case report, 366
orthopedic, intramedullary instrumentation vs damage control in femoral shaft fractures, immunoinflammatory parameters impact, 7
reaming of femoral medullary cavity, intramedullary pressure and cortical temperature during, 495
rib fractures, absorbable plates for repair of, 835
septic ankle, fusion with hybrid external fixation, case series, 685
small bowel injuries, intra-abdominal complications after, international review, 399
subclavian artery pseudoaneurysm, case report, 969
tibia soft tissue loss, tibialis anterior as local muscle flap for, 959
tile B fracture, sacroiliac screw fixation for, 962
time to death as indicator of quality of trauma care and, 45
trauma, end-tidal vs. arterial carbon dioxide as mortality marker, 892
traumatic disruption of hepatocolic ligament and, CT diagnosis, case report, 1175
traumatic laparotomy, retained surgical sponge as cause of colon obstruction, case report, 989
ventilated patients, esophageal Doppler monitor use in, 720
Survival
after 19-story fall, case report, 869
predictors of
injury severity and, outcome scoring in multiple trauma, 599
model for, intubated trauma patients, 53
risk ratios, independently derived vs. traditional, Injury Severity Score and, 933

Temperature, factor VIIa activity and, 886
Temporal bone fractures, spiral CT scan evaluation of, 704
Terrorism, trauma system response to, 1014
Thermal injuries
extremities, free tissue transfers in, 707
venous thromboembolism of lower extremities, duplex sonography determination of prevalence, 1162
Thoracic aorta
blunt trauma, intravascular ultrasound and transesophageal echocardiography role in, 330
pseudoaneurysm of, in patient with intracranial and intra-abdominal injuries, endovascular repair, case report, 778
traumatic occlusion of, case report and literature review, 147
traumatic rupture of, thoracic aortic occlusion after repair with endovascular graft, case report, 593
Thoracic spine, blunt trauma, reformatted helical CT for evaluation of, 665
Thoracolumbar spine, injuries, validation of CT screening in, 228
Thrombosis, intramural, inferior vena caval injury and, after penetrating trauma, case report and literature review, 1168
Tibia
fracture
as complication of intraosseous infusion during pediatric resuscitation, case report, 786
intramuscular compartment pressure effects on outcome, 1133
pseudoaneurysm of anterior tibial artery, thrombotic resolution of, case report, 561
open fractures of, treatment delay and infection effects on outcome, 949
soft tissue loss, tibialis anterior as local muscle flap for, 959
Tibial artery, anterior, traumatic
pseudoaneurysm of, thrombotic resolution of, case report, 561
Tibialis anterior, as muscle flap in tibia soft tissue loss, 959
Tibioperoneal artery, pseudoaneurysm of, after gunshot wounds, 485
Toxic shock syndrome, *Streptococcus*, central myonecrosis from, case report, 994
Trachea, emergency intubation of, after injury, practice guidelines for, 163
Transfusion, blood, anemia and, in intensive care unit patients, 269
Transportation, patient, interfacility, in urban trauma systems, outcome effects, 444
Trauma, *see also* specific types or site
acute acalculous cholecystitis after, prospective study, 323
alcohol screening, trauma surgeon use of, national survey, 849
aminoglycoside, once-daily dosing, clinical predictors of, 255
anemia and blood transfusion in, 269
aortic valve rupture, repair of, case report, 556
assessment, patient simulator use in, 651
automated vs. manual blood pressure, validity comparison study, 860
axillosubclavian, retrograde transbrachial arteriography in ER for evaluation, 69
blunt
cervical spine, radiographic clearance of, 222
facial fractures and life-threatening hemorrhage, transcatheter arterial embolization effects, 74
functional outcomes after, octogenarians, 26
hip dislocation and vascular injury requiring amputation, case report, 135
thoracic aorta occlusion, case report and literature review, 147
computerized collaborative billing effects on payment denials, 762
distal forearm fractures, incidence, risks, and future projections, 87
duodenal, case report, 802
emergency tracheal intubation after, guidelines for, 163
femoral neck, distal femur, and femoral shaft fractures, management of, 80
hemorrhagic hypotension, hypertonic saline/dextran dosage, 413
high-energy, forearm defects after, functional reconstruction after, case report, 774
hyperglycemia as prognostic indicator in, 33
hypothermia after, centrifugal vortex blood pump and heparin-bonded circuit for extracorporeal rewarming, 407
intubation after, survival probability predictors, 53
mortality, early coagulopathy as predictor of, 39
multiple organ failure, incidence and treatment of, 608
nosocomial pneumonia, prophylactic antibiotics and, 249
outcome determination, Glasgow Coma Score and pupil size/reactivity, 437

pancreatic injury, morbidity predictors, 898
penetrating
exsanguinating wound of internal jugular vein, endovascular management of, case report, 158
facial fractures and life-threatening hemorrhage, transcatheter arterial embolization effects, 74
transected vertebral artery, antegrade and retrograde embolization of, case report, 151
severe intracranial hypertension and, decompressive laparotomy for management, case report, 551
symptomatic traumatic subclavian steal syndrome, case report, 370
Trauma assessment, patient simulator role, 651
Trauma care
Canadian, trends in (editorial), 395
computerized collaborative billing effects on payment denials, 762
daily multidisciplinary round effects on length of stay, 913
fluid resuscitation strategies, animal trial review study, 571
general surgery residents effects on efficiency and outcome in, 14
multiple organ failure, incidence and treatment of, 608
quality of
estimation in teaching hospitals in Tehran, 459
time to death as indicator of, 45
Trauma centers
care quality and, estimation of, teaching hospitals in Tehran, 459
critically injured patients, in-house trauma surgeon effects on management/outcome, 20
daily multidisciplinary round effects on length of stay, 913
level I, mild traumatic brain injury identification and evaluation in, 450
rural, respiratory rate as triage tool in, 466
Trauma surgeons, business medicine and (editorial), 215
Trauma systems
gunshot wounds, nonintracranial fatal, in children, 631
terrorism response, 1014
urban, interfacility transfer effects on outcomes, 444
Treadmill-associated injuries, children, 130
Triage
interfacility transfer in urban trauma systems effects on, 444
respiratory rate as tool for, in rural trauma center, 466
Tumor, solid organ injury related to, in blunt trauma, case report, 375
Tumor necrosis factor-á, local vs. systemic, responses to lipopolysaccharide in hemorrhagic shock, 298

Ultrasound, intravascular, in blunt thoracic aortic injury, 330
Upper extremity, revascularization of, after traumatic amputation, case report, 566
Ureteropelvic junction disruption, traumatic lumbar hernia and, case report and literature review, 985
Urethral drainage, intraperitoneal bladder injuries, comparison with suprapubic/urethral catheterization, 1152
Urinary bladder, neglected foreign body removal from, case report, 791

Vascular injuries
axillosubclavian, retrograde transbrachial arteriography in ER for evaluation, 69
bilateral temporary aortoiliac shunt for control of, case report, 592
blunt, in extremities, diagnosis, management, and outcomes, 814
Vena cava, bullet embolus from, case report, 979
Venovenous rewarming, after hypothermia, comparison with arteriovenous rewarming, 741
Ventilation
mechanical
adenosine triphosphate release during, lung edema and, 290
lung injury severity scoring in, 285
nosocomial pneumonia in, prophylactic antibiotics effects, 249
surgery patients, esophageal Doppler monitor in, 720
pneumonia associated with, bronchoalveolar lavage in diagnosis of, 263
Vertebral artery
blunt trauma, cervical spine fracture as predictor of, 811
penetrating trauma, Guglielmi detachable coil embolization of, case report, 1171
transected, antegrade and retrograde embolization of, case report, 151
Violence, traumatic brain injuries and, population-based study, 1045

Western Trauma Association, presidential address, 1007

Zygomycosis, disseminated, infection in hematologic malignancy and, case report, 568
